

**IMPORTANT
NOTICE**

Dear valued Y members,

In an effort to prevent continued spread of COVID-19, our Y has made the difficult decision to close our facilities effective March 18th, 2020 at 7pm and reevaluate our position by April 6th.

Throughout the Y's history, we have been called upon to provide critical services during challenging or uncertain times. During our temporary closure, we are working closely with local officials, emergency agencies, school systems and health care organizations to support our community and will share those details and how you can help neighbors in need as soon as possible. **At this time, the only program to remain open in our facility will be our school aged childcare program. This program is presently only open to our existing after school participants**

As a nonprofit, we're working hard to serve during this time. Your generous support provides a foundation for our work. We also understand many of our members may be facing financial uncertainty. If you have concerns about your account, please call Stephanie Campbell at 704.982.1916.

To help you stay active, the Y has launched [Y360](#). These virtual classes have been made available to you at no cost during this crisis so you can stay healthy at home.

It is our strong intention to resume all normal operations as soon as possible. As things change, we will continue to keep you informed. We are grateful for your understanding, flexibility and support.

In health,

The SCFY Board and Staff
